

Manually Configuring **eduroam** -- iPad

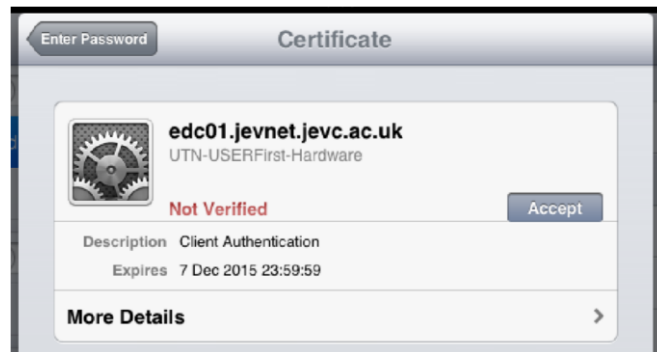

1. Open the **Settings** app and click on the **Wi-Fi** option on the left hand side. You should see various wireless networks listed. Click on **eduroam**

2. You will now be asked for a username and password. Enter yours, based on following format, then click **Join**.
username@newbattleabbeycollege.ac.uk

3. You will now be asked to accept the security certificate. Click **Accept**

Note: The name of the certificate you are presented with may not match the one shown here.

4. You should now be connected to the network. You can check this by looking for the tick beside **eduroam** and the wifi icon in the top left-hand-side of your screen.
